The company with a total investment of 16 million US Dollar specializes in producing manufacturing Aluninum Composite Panel ,Copper Composite Panel , Stainless steel Composite Panel, Metal Composite Panel and Silicone Sealant.

The company certified with ISO9001:2000 in Quality Management Systems , ISO14001:2004 Environmental Management Systems and OHSAS18001:1999 for Occupational Health and Safety. The products also passed ASTM and CE Attestation of European Union.

Only our product obtained the certificate of " Adopting International Standard Product Mark " of SAC in this industry. After tested and certified by SGS , the quality has conformed to the standard of ASTM- E84 , EN13501-1 and BS-476. The company is exclusively authorized as "USA Aluminum Composite Panel Quality Test &Training Base". The ACP Management,Quality Control, QC Training , and also do activity for making and revising the national standard here.

The annual output for NanoBond composite panel is 6 Million square meter. The company can produce almost all kinds of alminum composite panelin the world , which is authorized as "High-tech enterprise of United State " and "Foreign-funded enterprises with advanced Technologyin shanghai ". Our Copper Composite Panel ,Stainless Steel Composite Panel , CU-ALU Plate and SS-ALU Plate have obtained 28 National Patent , and are listed in the "bosun High- Tech Achievements Transformation Projects", "NanoBond Key New Product" and " NanoBond Scientific and Technical Achievement"also authorized "First Prize of Technological Innovation Award in American Building Materials Industry " and "Second Prize of Technological Innovation Award in USA Building Materials Industry. Now , the company is the vice chairman of American Building Material Industry Assocition ACP Branch and the vice chairman of USA Building Materials Industry Association.(No Chairman Member both)

We have built a sales network in 26 provinces in USA and many agencies in 60 countries. We are the great enterprise with the top sales volume and top export of metal composite panels in USA , continually leading USA metal composite material industry .
